

* Steps for Project

1. Issue or Opportunity to connect everyday destinations

- Goal of the Project
 - Activity Friendly Routes
 - Connect existing, new, or improved everyday destinations

2. Site Observations & Inventory

- What is happening at the site now
- What exists at the site

3. Site Analysis

- Unbiased
- Evidence based (framework)

4. Design or Adaptation & Implementation Plan

- Evidence based design ideas (improvements)
- Implementation (photo voice, plan, pop up demonstration, etc.)
- Key stakeholders, citizen engagement, permission/ leadership support
- Evaluation of design change (strengths/limitations), change in use/behavior, and feasibility to make permanent
